Macroeconomic Developments:

Liquidity conditions in the interbank space tightened. Indicatively, the overnight **interbank rate** decreased by 24.0 bps week on week to close at **13.22%**. The average daily traded volumes decreased to **KES 14.41Bn** from KES 15.88Bn observed in the previous week.

Inflation rose to 6.90% from 6.60% in the previous month.

Kenya's consumer prices climbed at their quickest rate in four months in January, owing to increasing expenses for school fees, energy, apparel, financing, and resumed upward pressure on food prices.

However, among the basket of goods and services used by KNBS to measure inflation, electricity costs rose the most dramatically. Kenya Power charged an average of KES 7,447 to homes that used 200 kilowatt-hours (units), a 41.1% increase from the previous year.

Statistic	Current	Previous	Change (bps)

Currency

On the FX front, the shilling continues to depreciate against the greenback, closing at **160.57**.

Continued intervention by the central bank through activity in the interbank foreign exchange market and expected foreign currency inflows from diaspora remittances, tourism and IMF will alleviate the pressure on the shilling.

Foreign exchange reserves increased by **1.67%** week on week to close at **US \$7,134Mn**, the reserves represent **3.8 months** of import cover which is below the CBK's statutory requirement of at least 4 months of import cover.

The **DXY** increased to close at **103.96** from 103.47 in the previous week.

The U.S. Dollar Index (DXY) indicates the general international value of the USD. The DXY does this by averaging the exchange rates between the US Dollar and major world currencies.

Currency	Week 5	Week 4	W/W change (%)
US Dollar	160.67	160.90	(0.14%)

Fiscal Tracker-December 2023

For the fifth month of FY'2023/2024, **total revenue** collected as reported by the National Treasury stood at **KES 1,1441.29Bn** which represents a **33.66%** achievement against the revised full year target of **KES 4,281.61Bn**.

Net **domestic borrowing** stood at **KES 269.71Bn** reflecting a performance rate of **31.66%** compared to **24.41%** in the same period in FY'2022/2023. The performance in domestic borrowing comes as the government shifts its focus on domestic debt from the issuance of long-term instruments to more **short-term** bonds to align with investor appetite and realize the borrowing target.

The **total expenditure** increased by **KES 72.58Bn** to **KES 1,441.81Bn** compared to **KES 1,369.22Bn** in the same period in 2022/2023 fiscal year. This is largely attributable to an increase in Consolidated Fund Services (CFS) by **KES 112.12Bn** to **KES 667.95Bn**. However, the development expenditure decreased by **KES 51.34Bn** to **KES 70.41Bn**.

The increase in public **expenditure** continues to hamper government's efforts of achieving reduced **fiscal deficit** to GDP for FY'23/2024 through fiscal consolidation measures.
